Meeting at 4 PM today

I wanted to let you know what we'll be in a position to do at our 4 PM meeting. We have not completed our review of the comments that you faxed to us yesterday. Based on my conversation with Art yesterday, I understand that Margo has comments that she would prefer to discuss with us, rather than faxing pages to us. Our expectation is that we will have that discussion today so that we can understand Margo's concerns on uncertainty and whatever other issues she has. We will be prepared to give you our reactions to the 50-page fax at our 3 PM call tomorrow.
